Series Name: ALVA
Product Code: 320X640AVA55
Product Group: Wall **(W)**
Description: 320X640 ALVA CREAM
Size: 32X64cm
Shade Variation: V2
Surface: Glossy **(G)**
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

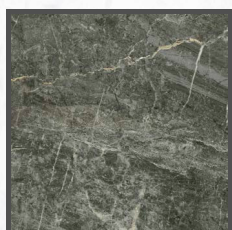

32X64 ALVA BROWN

Series Name: ALVA
Product Code: 320X640AVA06
Product Group: Wall **(W)**
Description: 32X64 ALVA BROWN
Size: 32X64cm
Shade Variation: V2
Surface: Glossy **(G)**
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

32X64 ALVA PUZZLE COFFEE DECOR

Series Name: ARDEN
Product Code: 320X640ARN19
Product Group: Wall **(W)**
Description: 32X64 ARDEN ANTHRACITE
Size: 32X64cm
Shade Variation: V2
Surface: Glossy **(G)**
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

40X40 ARDEN ANTHRACITE

Series Name: ARDEN
Product Code: 400X400ARN00
Product Group: Floor **(F)**
Description: 40X40 ARDEN ANTHRACITE
Size: 40X40cm
Shade Variation: V2
Surface: Matt **(M)**
Slip Value: Not Exists
Thickness: 9 mm

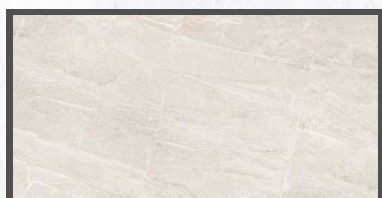

40X40 ARDEN IVORY

Series Name: ARDEN
Product Code: 400X400ARN48
Product Group: Floor **(F)**
Description: 40X40 ARDEN IVORY
Size: 40X40cm
Shade Variation: V2
Surface: Matt **(M)**
Slip Value: Not Exists
Thickness: 8 mm

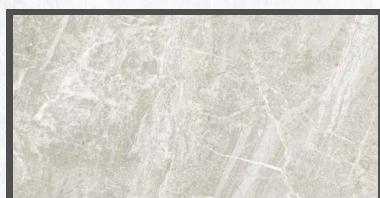

**32X64 ARDEN ANTHRACITE
LORA MIX DECOR**

Series Name: ARDEN
Product Code: 320X640ARN00
Product Group: Wall **(W)**
Description: 32X64 ARDEN ANTHRACITE
Size: 32X64cm
Shade Variation: V2
Surface: Glossy **(G)**
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

**60X120 ARDEN CREAM
FULL POLISHED RECTIFIED**

Series Name: ARDEN
Product Code: 600X1200ARN55PAR
Product Group: Glazed Porcelain **(GP)**
Description: 60X120 ARDEN CREAM
Size: 60X120cm
Shade Variation: V2
Surface: Full Polished **(FP)**

20X50 ARUBA PATCHWORK WHITE

Series Name: ARUBA
Product Code: 200X500ARB11
Product Group: Wall 
Description: 20X50 ARUBA PATCHWORK WHITE
Size: 20X50cm
Shade Variation: V2
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

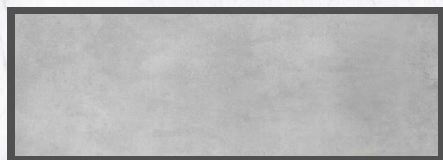

20X50 ARUBA BEIGE

Series Name: ARUBA
Product Code: 200X500ARB02
Product Group: Wall 
Description: 20X50 ARUBA BEIGE
Size: 20X50cm
Shade Variation: V2
Surface: Matt 
Slip Value: R-9
Thickness: 9 mm

20X50 ARUBA PATCHWORK BEIGE

Series Name: ARUBA
Product Code: 200X500ARB12
Product Group: Wall 
Description: 20X50 ARUBA PATCHWORK BEIGE
Size: 20X50cm
Shade Variation: V2
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

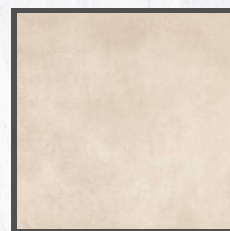

20X50 ARUBA GREY

Series Name: ARUBA
Product Code: 200X500ARB03
Product Group: Wall 
Description: 20X50 ARUBA GREY
Size: 20X50cm
Shade Variation: V2
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

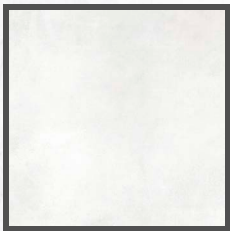

20X50 ARUBA PATCHWORK GREY

Series Name: ARUBA
Product Code: 200X500ARB13
Product Group: Wall 
Description: 20X50 ARUBA PATCHWORK GREY
Size: 20X50cm
Shade Variation: V2
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

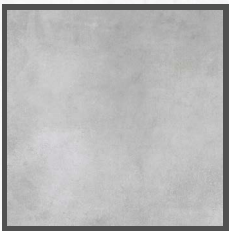

45X45 ARUBA BEIGE

Series Name: ARUBA
Product Code: 450X450ARB02
Product Group: Glazed Porcelain 
Description: 45X45 ARUBA BEIGE
Size: 45X45cm
Shade Variation: V2
Surface: Matt 
Slip Value: R-9
Thickness: 8 mm

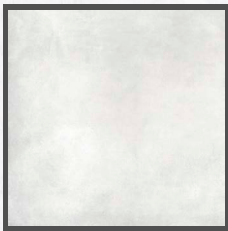

45X45 ARUBA WHITE

Series Name: ARUBA
Product Code: 450X450ARBO1
Product Group: Glazed Porcelain
Description: 45X45 ARUBA WHITE
Size: 45X45
Shade Variation: V2
Surface: Matt
Slip Value: R-9
Thickness: 8 mm

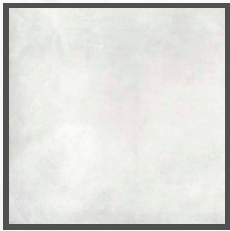

45X45 ARUBA GREY

Series Name: ARUBA
Product Code: 450X450ARBO3
Product Group: Glazed Porcelain
Description: 45X45 ARUBA GREY
Size: 45X45cm
Shade Variation: V2
Surface: Matt
Slip Value: R-9
Thickness: 8 mm

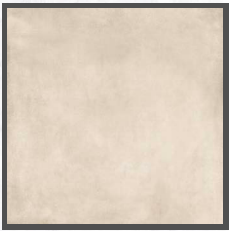

60X60 ARUBA WHITE

Series Name: ARUBA
Product Code: 600X600ARBO1
Product Group: Glazed Porcelain
Description: 60X60 ARUBA WHITE
Size: 60X60cm
Shade Variation: V2
Surface: Matt
Slip Value: R-9
Thickness: 9 mm

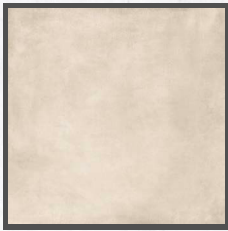

60X60 ARUBA WHITE RECTIFIED

Series Name: ARUBA
Product Code: 600X600ARBO1REK
Product Group: Glazed Porcelain
Description: 60X60 ARUBA WHITE RECTIFIED
Size: 60X60cm
Shade Variation: V2
Surface: Matt
Slip Value: None
Thickness: 9 mm

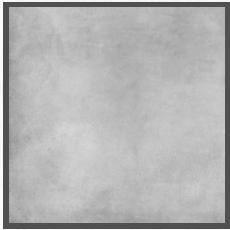

60X60 ARUBA BEIGE

Series Name: ARUBA
Product Code: 600x600ARBO2
Product Group: Glazed Porcelain
Description: 60X60 ARUBA BEIGE
Size: 60X60cm
Shade Variation: V2
Surface: Matt
Slip Value: R-9
Thickness: 9 mm

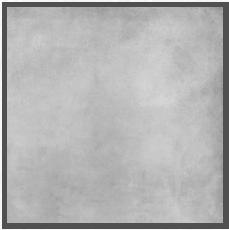

60X60 ARUBA BEIGE RECTIFIED

Series Name: ARUBA
Product Code: 600X600ARBO2REK
Product Group: Glazed Porcelain
Description: 60X60 ARUBA BEIGE RECTIFIED
Size: 60X60cm
Shade Variation: None
Surface: Matt
Slip Value: R-9
Thickness: 9 mm

60X60 ARUBA GREY

Series Name: ARUBA
Product Code: 600X600ARBO3
Product Group: Glazed Porcelain
Description: 60X60 ARUBA GREY
Size: 60X60cm
Shade Variation: V2
Surface: Matt
Slip Value: R-9
Thickness: 9 mm

60X60 ARUBA GREY RECTIFIED

Series Name: ARUBA
Product Code: 600X600ARBO3REK
Product Group: Glazed Porcelain
Description: 60X60 ARUBA GREY RECTIFIED
Size: 60X60cm
Shade Variation: None
Surface: Matt
Slip Value: R-9
Thickness: 9 mm

10X30 PLAIN MAT BEIGE

Series Name: PLAIN
Product Code: 100X300BEY12
Product Group: Wall 
Description: 10X30 PLAIN MAT BEIGE
Size: 10X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

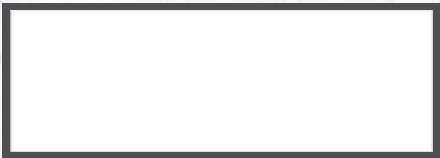

10X30 PLAIN MAT GREY

Series Name: PLAIN
Product Code: 100X300BEY13
Product Group: Wall 
Description: 10X30 PLAIN MAT GREY
Size: 10X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

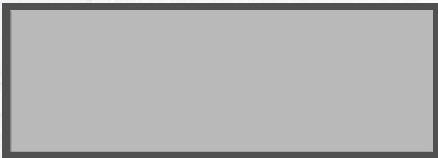

10X30 PLAIN MAT IVORY

Series Name: PLAIN
Product Code: 100X300BEY48
Product Group: Wall 
Description: 10X30 PLAIN MAT IVORY
Size: 10X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

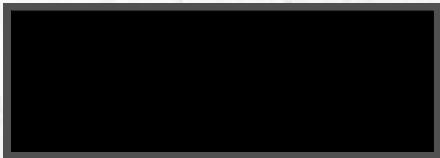

10X30 PLAIN MATT WHITE

Series Name: PLAIN
Product Code: 100X300BEY69
Product Group: Wall 
Description: 10X30 PLAIN MATT WHITE
Size: 10X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

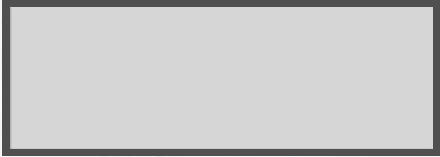

10X30 PLAIN GLOSSY GREY

Series Name: PLAIN
Product Code: 200X500ARB13
Product Group: Wall 
Description: 10X30 PLAIN GLOSSY GREY
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

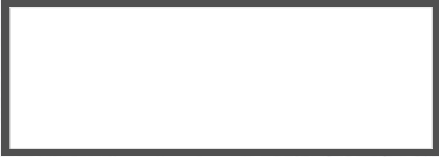

10X30 PLAIN GLOSSY BLACK

Series Name: PLAIN
Product Code: 100X300PSI93
Product Group: Wall 
Description: 10X30 PLAIN GLOSSY BLACK
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

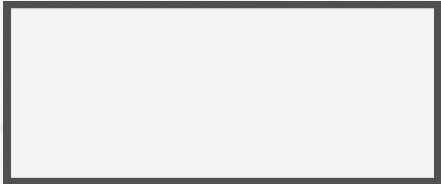

10X30 PLAIN GLOSSY LIGHT GREY

Series Name: PLAIN
Product Code: 100X300BEY47
Product Group: Wall 
Description: 10X30 PLAIN GLOSSY LIGHT GREY
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

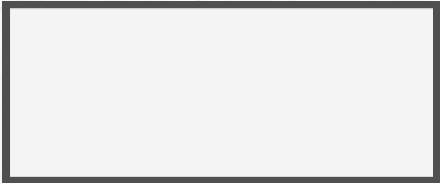

10X30 PLAIN GLOSSY WHITE

Series Name: PLAIN
Product Code: 100X300BEY01
Product Group: Wall 
Description: 10X30 PLAIN GLOSSY WHITE
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

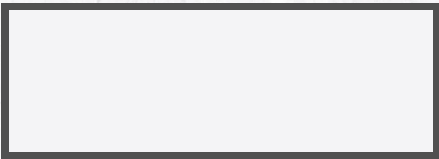

30X60 PLAIN GLOSSY WHITE

Series Name: PLAIN
Product Code: 300X600BEY01
Product Group: Wall 
Description: 30X60 PLAIN GLOSSY WHITE
Size: 30X60cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 9 mm

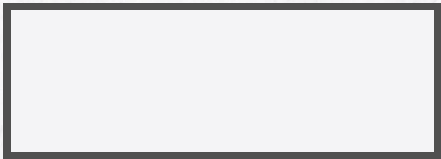

30X60 GLOSSY WHITE RECTIFIED

Series Name: PLAIN
Product Code: 300X600BEY01REK
Product Group: Wall 
Description: 30X60 GLOSSY WHITE RECTIFIED
Size: 30X60cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 9 mm

20X50 MATTE WHITE

Series Name: PLAIN
Product Code: 200X500BEY69
Product Group: Wall 
Description: 20X50 MATTE WHITE
Size: 20X50
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

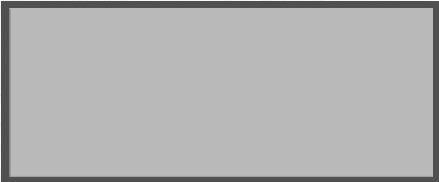

20X50 GLOSSY WHITE

Series Name: PLAIN
Product Code: 200X500BEY01
Product Group: Wall 
Description: 20X50 GLOSSY WHITE
Size: 20X50
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

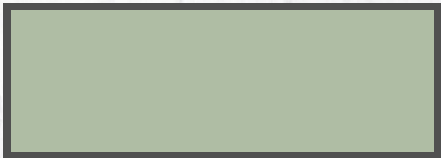

7,5X15 PLAIN GLOSSY WHITE

Series Name: PLAIN
Product Code: 100X300PSI93
Product Group: Wall 
Description: 7,5X15 PLAIN GLOSSY WHITE
Size: 7,5X15cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

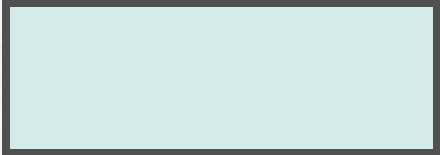

7,5X15 PLAIN GLOSSY GREY

Series Name: PLAIN
Product Code: 075X150BEY03
Product Group: Wall 
Description: 7,5X15 PLAIN GLOSSY GREY
Size: 7,5X15cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 6 mm

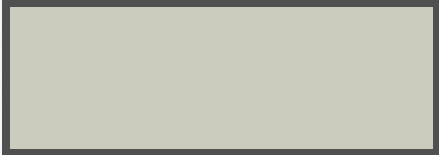

7,5X30 MAT ALOE GREEN

Series Name: PLAIN
Product Code: 075X300BEY15
Product Group: Wall 
Description: 7,5X30 MAT ALOE GREEN
Size: 7,5X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

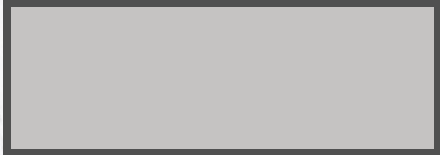

7,5X30 MAT ICE BLUE

Series Name: PLAIN
Product Code: 075X300BEYO9
Product Group: Wall 
Description: 7,5X30 MAT ICE BLUE
Size: 7,5X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

7,5X30 SAND BEIGE

Series Name: PLAIN
Product Code: 075X300BEY61
Product Group: Wall 
Description: 7,5X30 SAND BEIGE
Size: 7,5X30cm
Surface: Glossy 
Thickness: 8 mm

7,5X30 PARLAK SAND GREY

Series Name: PLAIN
Product Code: 075X300BEY63
Product Group: Wall 
Description: 7,5X30 PARLAK SAND GREY
Size: 7,5X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

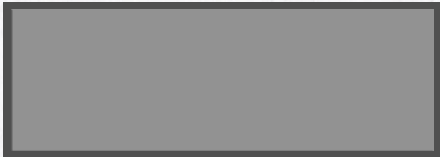

7,5X30 PLAIN MATT WHITE

Series Name: PLAIN
Product Code: 075X300BEY69
Product Group: Wall 
Description: 7,5X30 PLAIN MATT WHITE
Size: 7,5X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

7,5X30 PLAIN GLOSSY WHITE

Series Name: PLAIN
Product Code: 075X300BEYO1
Product Group: Wall 
Description: 7,5X30 PLAIN GLOSSY WHITE
Size: 7,5X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

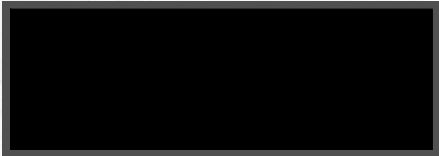

7,5X30 PLAIN GLOSSY GREY

Series Name: PLAIN
Product Code: 075X300BEYO3
Product Group: Wall 
Description: 7,5X30 PLAIN GLOSSY GREY
Size: 7,5X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

7,5X30 PLAIN MATT BLACK

Series Name: PLAIN
Product Code: 075X300BEY83
Product Group: Wall 
Description: 7,5X30 PLAIN MATT BLACK
Size: 7,5X30cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

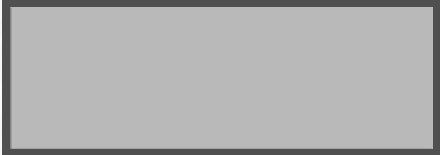

7,5X30 PLAIN GLOSSY BLACK

Series Name: PLAIN
Product Code: 075X300BEY93
Product Group: Wall 
Description: 7,5X30 PLAIN GLOSSY BLACK
Size: 7,5X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

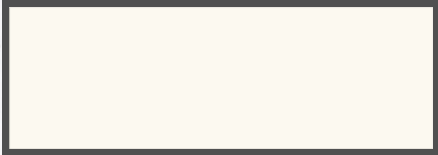

10X33 PLAIN MATT WHITE

Series Name: PLAIN
Product Code: 100X330PAS01
Product Group: Wall 
Description: 10X33 PLAIN MATT WHITE
Size: 10X33cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X33 PLAIN MATT GREY

Series Name: PLAIN
Product Code: 100X330PAS03
Product Group: Wall 
Description: 10X33 PLAIN MATT GREY
Size: 10X33cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X33 PLAIN MATT IVORY

Series Name: PLAIN
Product Code: 100X330PAS48
Product Group: Wall 
Description: 10X33 PLAIN MATT IVORY
Size: 10X33cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

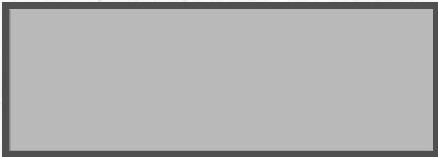

10X33 PLAIN MATT BLACK

Series Name: PLAIN
Product Code: 100X330PAS93
Product Group: Wall 
Description: 10X33 PLAIN MATT BLACK
Size: 10X33cm
Shade Variation: V1
Surface: Matt 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X40 PLAIN GLOSSY WHITE

Series Name: PLAIN
Product Code: 100X400BEY01
Product Group: Wall 
Description: 10X40 PLAIN GLOSSY WHITE
Size: 10X40cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 9 mm

10X40 PLAIN GLOSSY GREY

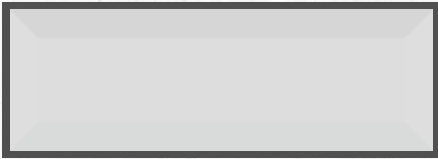

Series Name: PLAIN
Product Code: 100X400BEY03
Product Group: Wall 
Description: 10X40 PLAIN GLOSSY GREY
Size: 10X40cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 9 mm

10X30 METRO WHITE

Series Name: METRO
Product Code: 100X300MET01
Product Group: Wall 
Description: 10X30 METRO WHITE
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

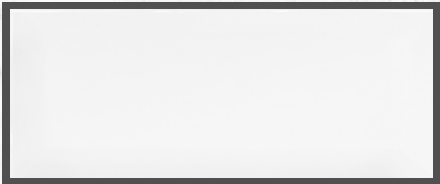

10X30 METRO LIGHT GREY

Series Name: METRO
Product Code: 100X300MET47
Product Group: Wall 
Description: 10X30 METRO LIGHT GREY
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X30 METRO BLACK

Series Name: METRO
Product Code: 100X300MET93
Product Group: Wall 
Description: 10X30 METRO BLACK
Size: 10X30cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

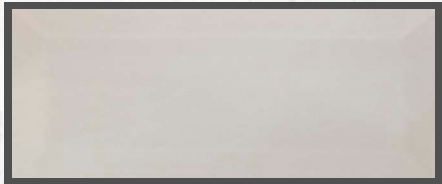

10X20 METRO WHITE

Series Name: METRO
Product Code: 100X200MET01
Product Group: Wall 
Description: 10X20 METRO WHITE
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X20 METRO GREY

Series Name: METRO
Product Code: 100X200MET03
Product Group: Wall 
Description: 10X20 METRO GREY
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

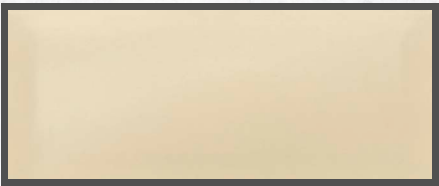

100X200 METRO MID GREY

Series Name: METRO
Product Code: 100X200MET57
Product Group: Wall 
Description: 100X200 METRO MID GREY
Size: 10X20cm
Thickness: 8 mm

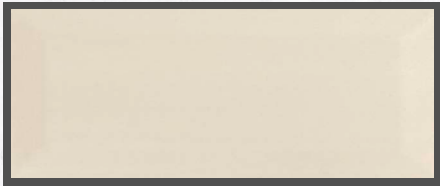

10X20 METRO DARK GREY

Series Name: METRO
Product Code: 100X200MET50
Product Group: Wall 
Description: 10X20 METRO DARK GREY
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X20 METRO CREAM

Series Name: METRO
Product Code: 100X200MET55
Product Group: Wall 
Description: 10X20 METRO GREY
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X20 METRO BONE

Series Name: METRO
Product Code: 100X200MET56
Product Group: Wall 
Description: 10X20 METRO BONE
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

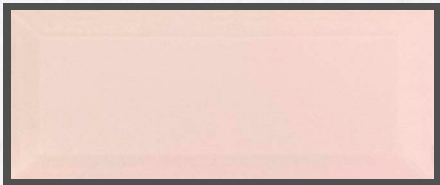

10X20 METRO GREEN

Series Name: METRO
Product Code: 100X200MET05
Product Group: Wall 
Description: 10X20 METRO GREEN
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

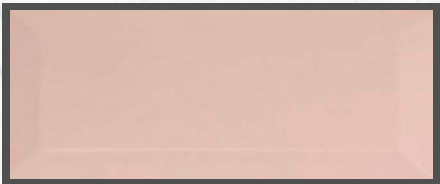

10X20 METRO DARK GREEN

Series Name: METRO
Product Code: 100X200MET78
Product Group: Wall 
Description: 10X20 METRO DARK GREEN
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X20 METRO PINK

Series Name: METRO
Product Code: 100X200MET83
Product Group: Wall 
Description: 10X20 METRO PINK
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

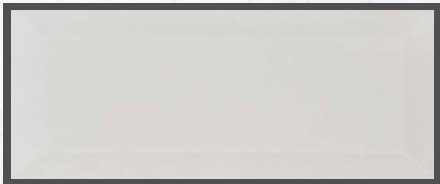

100X200 METRO ROSE PINK

Series Name: METRO
Product Code: 100X200MET72
Product Group: Wall 
Description: 100X200 METRO ROSE PINK
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

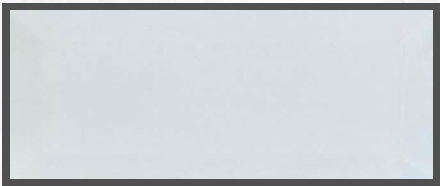

10X20 METRO RED

Series Name: METRO
Product Code: 100X200MET14
Product Group: Wall 
Description: 10X20 METRO RED
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

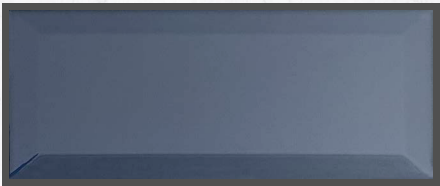

100X200 METRO DOVE

Series Name: METRO
Product Code: 100X200MET60
Product Group: Wall 
Description: 100X200 METRO DOVE
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

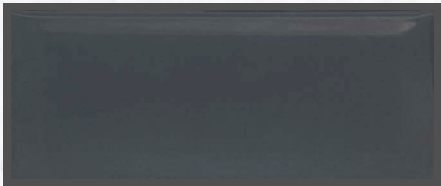

10X20 METRO MINT

Series Name: METRO
Product Code: 100X200MET15
Product Group: Wall 
Description: 10X20 METRO MINT
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

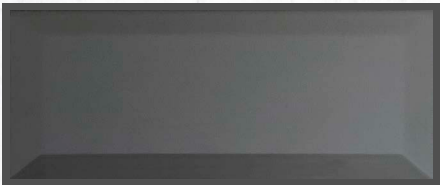

10X20 METRO DEEP BLUE

Series Name: METRO
Product Code: 100X200MET24
Product Group: Wall 
Description: 10X20 METRO DEEP BLUE
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

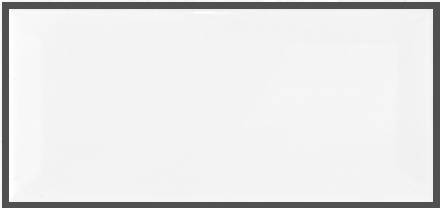

10X20 METRO NAVY

Series Name: METRO
Product Code: 100X200MET35
Product Group: Wall 
Description: 10X20 METRO NAVY
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

10X20 METRO BLACK

Series Name: METRO
Product Code: 100X200MET93
Product Group: Wall 
Description: 10X20 METRO BLACK
Size: 10X20cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 8 mm

7,5X15 METRO WHITE

Series Name: METRO
Product Code: 075X150MET01
Product Group: Wall 
Description: 7,5X15 METRO WHITE
Size: 7,5X15cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 6 mm

7,5X15 METRO GREY

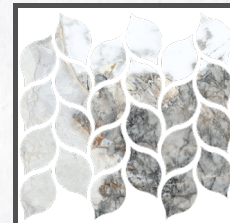

Series Name: METRO
Product Code: 075X150MET03
Product Group: Wall 
Description: 7,5X15 METRO GREY
Size: 7,5X15cm
Shade Variation: V1
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 6 mm

60X120 ALPI WHITE FULL POLISH RECTIFIED

Series Name: ALPI
Product Code: 600X1200API01PAR
Product Group: PRODUCT GROUP
Description: 60X120 ALPI WHITE FULL POLISH RECTIFIED
Size: 60X120cm
Shade Variation: V2
Surface: Glossy 
Slip Value: Not Exists
Thickness: 10 mm

32X32 ALPI WHITE FULL POLISH LEAF MOSAIC

Series Name: ALPI
Product Code: 320X320API01LEA
Product Group: Glazed Porcelain 
Description: 32X32 ALPI WHITE FULL POLISH LEAF MOSAIC
Size: 15X60 cm
Shade Variation: Mosaic
Surface: Glossy 
Slip Value: Slip Value Is Not Required
Thickness: 11 mm

60X60 ASPEN ANTHRACITE

Series Name: ASPEN
Product Code: 600X600ASP19
Product Group: Glazed Porcelain 
Description: 60X60 ASPEN ANTHRACITE
Size: 60X60cm
Shade Variation: V2
Surface: Matt 
Slip Value: R-9
Thickness: 10 mm

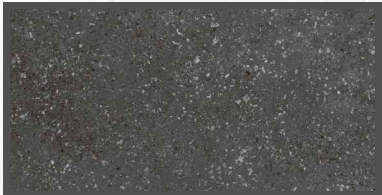

60X60 ASPEN GREY

Series Name: ASPEN
Product Code: 600X600ASPO3
Product Group: Glazed Porcelain 
Description: 60X60 ASPEN GREY
Size: 60X60cm
Shade Variation: V2
Surface: Matt 
Slip Value: R-9
Thickness: 9 mm

60X60 ASPEN WHITE

RoyalMidWest

— Ceramic Tile and Stones —

Slipperiness of the floor tiles vary according to the floor characteristics. Nonslip value is expressed with R.

The tiles with nonslip value between R9 and R13 should be selected according to the use feature of the location.

(STANDARD DIN 51130)

PLACE OF USE	NONSLIP VALUE
Vegetable oil production site	R 13
Oil and solid oil production facility	R 12
Milk industry	R 12
Bakery, patisserie and flour products production site	R 11
Slaughterhouses	R 13
Meat integrated plants	R 13
Chicken products processing sites	R 12
Fishery processing sites	R 13
Vegetable processing sites	R 13
Beverage warehouse	R 10
Beverage filling facility	R 13
Diner, restaurants, mess halls	R 11
Big kitchen (restaurant, hotel, factory)	R 12
Meat and meat products selling area	R 12
Laundry	R 11
Concrete and stone production warehouses	R 11
Automobile repair shops	R 12
Automobile washing areas	R 11
Engine oil and grease oil warehouses	R 12
Treatment plants	R 12
Fire station	R 12
Entrance halls	R 9
Cafeteria, canteen	R 9
Drugstore, hairdresser	R 9
Banks	R 9
Schools (dry areas)	R 9

WARNING: Products with higher than R9 nonslip value (R 10- R11- R 12) are exterior products which have

been produced for use in wet areas. For example; such as poolside. They should never be used in interior locations.

You can get detailed information at our Quality Control department.

USEFUL INFORMATION AND WARNINGS

ABOUT USEFUL INFORMATION

Dear Customers of RoyalMidWest,

The places we reside intrinsically have got some lines that express ourselves. Your decision to use ceramic coating products in your living areas will also prove to be an economic decision given the esthetical, hygienic, highly-resistant features rendering these products an equivalent life span as the building itself.

We would like to give you the following question & answers to offer you some clues on long-term and smooth use of our tile products:

AM I CHOOSING THE RIGHT CERAMICS?

- While choosing your product, examine the technical characteristics as well as the esthetical features.
- If you intend to lay down the product at locations with a heavy human traffic; please examine our technical features page. You will see explanations with examples.
- If the product is to be laid externally, our porcelain products should be preferred; and if floor tile is to be laid, appropriate glue and water-resistant, frost-resistant grouting material should be used.
- Wall tiles should not be coated on floors and external locations.
- You can apply the floor tiles on walls by using proper glues.

HOW MUCH SHOULD I ORDER?

- You should decide the coating type before calculating the amount of ceramics you need. Will you do diagonal coating or parallel coating? The total quantity that will be coated will not change given the total area. But there may be more losses during the cutting process depending on the type of coating and the figure of the area to be coated.
- You should decide the joint distance between the tiles. In general, 2 – 3 mm distance is allowed for the small size tiles, 3 mm distance for the medium-size tiles, and 3 – 4 mm distance for the large-sized tiles.
- We do not recommend that ceramic applications are laid without any grouting.
- The amount of ceramics to be used as skirting board should be identified.
- We recommend that you place your order with a surplus of 10% considering that you may need tiles during possible alteration and improvement works in the future. Please bear in mind that it may not be possible to find the same product in size and color in future.
- Please keep the surplus product inside its package.

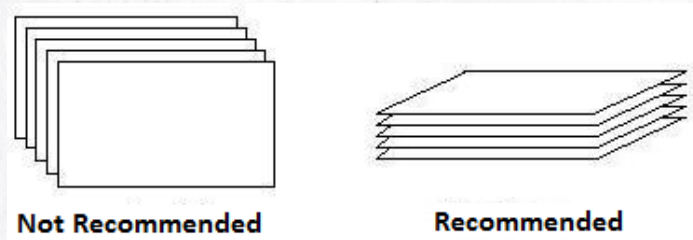

RECOMMENDATIONS FOR STORAGE

We recommend for the storage process that a maximum of 4 packages of the floor tiles, while a maximum of 3 packages of wall tiles should be stacked on top of one another.

During transporting the tiles palletless and freely, bind the tiles by using a rope or similar material, and fix them by using a rolled section. This will prevent the tiles from being broken by blocking their movement inside the transportation vehicle.

The direction of stacking the tiles in free position should be as arranged by the manufacturer. The tiles should be stacked vertically. The large-scale tiles, in particular, are definitely not recommended to be stacked horizontally.

It is highly important that the cardboard boxes used as packaging material in palletless storage should be protected against humidity.

WHAT SHOULD I DO WHEN I RECEIVE MY ORDER?

- Control your order personally.
- Confirm that the boxes are not opened.
- Be sure to read the usage instructions on the boxes.
- Be sure that the color and caliber codes on the packages are the same. Do not cover products with different codes on the same place. There may be differences in the hues of the products manufactured on different dates. The caliber defines the range of the size of the products. It is important that the same codes and calibers are laid down on the same areas.
- After receiving the products, place down the products taken from different boxes from different pallets. Decision on whether a feedback should be filed about the products should be given at this point. Any feedback about the installed products will not be accepted.

WHAT SHOULD I CARE DURING INSTALLATION?

- The area the installation will take place should be illuminated sufficiently.
- The surface the installation will be made should be clear.
- The ground the installation will take place should be smooth.
- The ground should be saturated with water at least 24 hours in advance.
- Before starting the application especially in dry and hot weather conditions, the tiles should be dampened in order to prevent sudden humidity losses in the adhesive mortar.
- Care should be shown in the application to have the (↑) arrow or the logotype on the back of the tiles in the same direction.
- Ceramic tiles should be laid down under all conditions as jointed with a joint space of at least 1-2 mm by using tile spacer depending on the size and usage purpose of the ceramic tiles. This is because there may be changes in the size and volume of the tiles due to difference in temperature. In order for the ceramic tiles to survive these changes in their volume without any damage (swelling and break in glaze) in their form, there should be an agreeable distance (joint space) between the tiles. Besides, the ceramic tiles should be definitely laid down in a jointed fashion to prevent any deformation due to structural mobility and live loads.

- The application should be carried out by using a paste and joint sealant in compliance with EN 12004 as will be selected in consideration with the relevant location, surface and function. Jointing material should be cleaned immediately after the completion of the application in line with the instructions of the manufacturer.
- The usage instructions on the package should be complied with during the preparation of the adhesive mortar.
- Joint grooves should be filled with joint sealant at the earliest after 24 hours after.
- During the preparation of the sealant mortar, the use instructions on the package should be obeyed.
- Our anti-slip products are only for outdoor use and therefore should be applied to areas such as wet floors and poolside. Never install these products to indoor areas.
- Since our glazed ceramic tile and kerajet products (DigiTile / DigiPrint) are highly resilient products, they should be cut with wet ceramic cutting machines not with normal ceramic cutting machines.

I HIRED A CONSTRUCTOR TO DO MY TILE WORK; WHAT SHOULD I CARE?

- The tiles need to spread to the surface in a regular and harmonic way. Joint spaces should be equal.
- There should not be bows and curves on the finished surface.
- There should not be difference in the level like a ladder step.
- There should be no broken parts, cracks and dislocated parts.
- There should be no cracks and dislocated parts on the joints.

WHAT SHOULD I CARE DURING THE USE AND MAINTENANCE?

- Abrasive cleaning materials (such as metal wire brush) should not be used on products with polished surfaces.
- RoyalMidWest recommends the use of low VOC (volatile organic compound), neutral PH, non-hazardous, and non-polluting products for cleaning and maintenance.
- Epoxy-based sealing compounds are resistant to acids and alkalis.
- Take care not to drop heavy and hard objects on ceramic surfaces.
- Decorative ceramics have a more fragile structure than other ceramics because they are produced for decorative purposes. Therefore, both constructors and end-users should show diligence during the furnishing and use as well as the cleaning of the surfaces with gold, platinum, bronze outlook. Only water should be used as cleaning material; abrasive chemical materials such as acid, alkali, mechanical cleaning powders (household bleach, cleaners with ammoniac, hydrochloric acid, etc.), and similar other chemicals should be absolutely avoided. Cleaning the surfaces with coarse cleaning equipment (wire, coarse side of the scouring sponge, etc.) is not recommended. Care should be shown to avoid the contact of materials such as high-level alcohol, naphtha, thinner and acetone with the products. The products should be cleaned and dried with a soft fabric and soapy water.

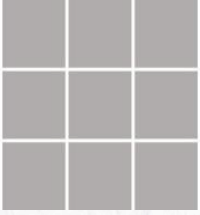

WHAT IS RANDOM PRINT TECHNOLOGY?

The prints of some of our products may vary from one tile to another. We know very well that nothing in the nature is identically the same with something else. The purpose of this print technology is to imitate nature and thus create a visual beauty. These products have been produced with random print technology.

WHAT IS THE COLOR / TONE CHANGE?

Dear Customers;

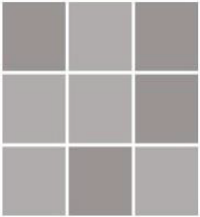

We have the following color / shade category labels on the packages of our products showing the variation of the print colors stemming from the design of our products. The design changes in the products and the outlook of the tiles taken from a product box may vary from each other depending on the design of our products.

V1

Tek Düze Görünüm
Uniform Appearance

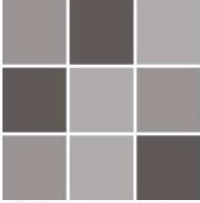

The difference in the shade and texture of the tiles taken from the same batch of production is so obscure that it cannot be observed by eye.

V2

Hafif Farklılık
Slight Variation

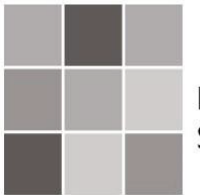

There are overtly visible differences in the texture and print designs of the tiles having similar colors.

V3

Önemli Farklılık
Moderate Variation

The main colors existing in a single tile exist in other tiles too. However the strength of the colors vary significantly from each other. This design concept is generally used in rustic tiles.

V4

Rastgele Farklılık
Substantial Variation

There are random changes in the color and shade of the tiles from one another, hence the color of a tile may be totally different than the other. However, there is a harmony between the colors of the tiles.

This type of products will exist in the product boxes also randomly. This design concept is generally used in rustic tiles. The color and tissue variation may be checked in our premises. This as a parameter can be formulated in some products during the product development phase as per the design and requests of the market.

Label example:

WHAT IS THE SHADE/TONE AT THE BOX LABELS?

We use the following color/tone classification system which we have designated as color/tone on the product boxes for the purpose of offering our customers products in separate batches without any risk of mistaking the tone changes in our products during their production. Upon your purchase, please try to confirm that the color/tone classifications on your product labels are identical.

COLOR / TONE CLASSIFICATIONS

	The lightest	Light	Normal	Dark	The Darkest
New Code	-2	-1	0	+1	+2

For further information, please visit our internet page. www.royalmidwest.com

WHAT DOES THE CALIBER STAND FOR ON THE BOX LABELS?

The size of the ceramics coming out of the oven at the same time is never the same due to the variability of the operating conditions (oven temperatures, press pressures, etc.) and raw materials used in the ceramic industry. Hence, we do the caliber process at our automatic machines before offering our products to our customers. The product laid down in a project should certainly be taken from the boxes carrying the same caliber information on their labels. Where an obligation arises for using products from different calibers, care should be taken not to use them in the same locations.

WHAT IS THE BATCH ON THE BOX LABELS?

There may be tangible differences in the color/tone of the products between the production batches as per the production conditions. The batch information on the box label of the product should be checked during the laying down of the products; the tiles from different production batches should be used in the same location.

BEST REGARDS

RoyalMidWest Ceramic Tile and Stones

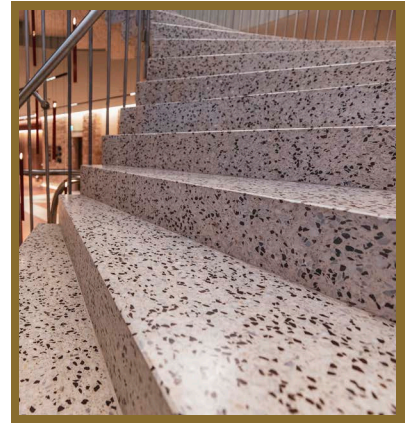

NATURAL STONES (TERRAZZO)

RoyalMidWest terrazzo, made entirely from natural materials, is produced with lines that reflect nature itself. It brings timeless elegance to the spaces it is used in, creating a unique architectural composition.

Terrazzo is a unique material that brings elegance and sophistication to every space it is used. Its story began with the use of cement mortar in the 12th century BC. We continue this legacy of the past by combining it with modern design and producing high quality products.

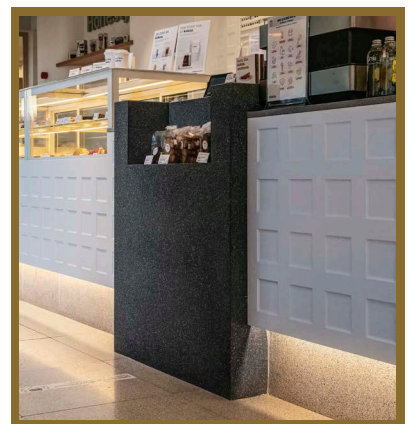

SLAB

Our terrazzo slabs, which can be produced in sizes up to 300x150 cm and in thicknesses of 2 or 3 cm, can be customized to fit the needs of any project. We also offer the option to produce smaller sizes if necessary. By adding palladiana marble pieces, metal chips, and glass shards, our slabs can be personalized to provide a unique touch to any architectural design. Our terrazzo slabs are also suitable for marble processing technology and can be processed with any type of machinery and equipment.

COVERING

Placco terrazzo products can be used as flooring, wall cladding, and stair treads. Depending on the selected thickness and surface treatment, they are suitable for use in areas with high pedestrian traffic, raised flooring systems, and both indoor and outdoor spaces. Our terrazzo products come in various sizes such as 120x120, 90x90, and 120x60 with a thickness of 2, 3, 4 cm, and 60x60 and 30x60 with a thickness of 1, 2, 3, 4 cm, making them perfect for use as flooring in different shapes such as triangles, hexagons, or other geometric shapes.

FURNITURE

Tables and coffee tables with a unique style, featuring Terrazzo's original touch, stand out with their durable structure. Terrazzo tables and coffee tables, which can be produced with customized side finish details and geometric shape options, are suitable for food contact and are shipped impregnated to prevent surface damage.

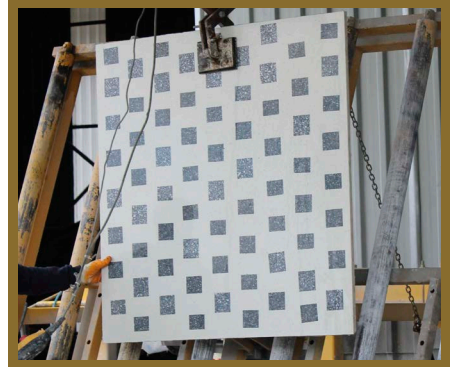

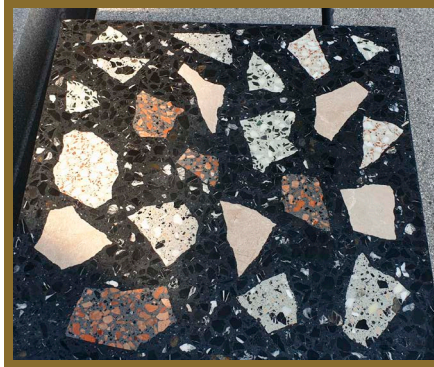

MOSAIC AND PROFILE

With Terrazzo, it is possible to make unlimited choice of mesh mosaics, skirting boards, profiles in various shapes and sections to be used as a complementary product in projects and designs.

SPECIAL PRODUCTS

Special projects require special designs. Placco creates terrazzo designs in different motifs, colors, and patterns using palladiana marble pieces, glass and mirror fragments, and metals for your project's unique design.

OBJECT

Terrazzo objects that will add elegance to your living space.

PLACCO SLABS TECHNICAL SPECIFICATIONS

Placco slabs and tiles are produced by mixing marble, granite, glass pieces and different aggregate types (in various combinations) with cement. Placco products are cement based products and they are developed after many research and trials. It has superior properties (high compressive strength, high flexural strength, low water absorption, etc.) compared to other cementbased terrazzo products.

General Features

- Placco products have unlimited color and design options which do not exist in natural stone such as marble, granite etc.
- Since Placco products have higher strength compared with other cement-based terrazzo, they can be produced thinner.
- They can be used for both indoor and outdoor applications.
- Since it is an alkaline product, it has an anti-bacterial characteristic.
- Placco products can be polished, brushed, honed or sandblasted.
- The slip resistance of the product varies according to the surface treatment.
- Since Placco products are mixtures containing natural aggregates (marble, granite, basalt, etc.), color differences may occur between products over time.

Technical Specifications

TECHNICAL SPECIFICATIONS*	TS EN13748-1	PLACCO
Compressive Strength	N/mm ² (MPa) >30	N/mm ² (MPa) >90 (min)
Water Absorption	<8%	<3% (max)
Bending Strength	N/mm ² (MPa) >5	N/mm ² (MPa) > 12 (min)
Abrasion	<30cm ³ /50cm ³	<17cm ³ /50cm ³ (min.)
Density	-	2.4 g/mm ³
Fire Resistance	A1	A1
Freeze Resistance	-	2/B- 3D

* The technical specifications are given above and those may vary insignificantly according to the type of aggregate and powder used.

Storage and Transportation

- The products should be handled carefully without being shaken, possible shaking may crack or even break the product.
- In order to prevent the products from moving freely and colliding with each other during transportation, they should be fixed before transportation.
- Carrying and storing products on top of each other horizontally should be avoided. Products should be transported and stocked vertically, side by side. Otherwise, the products are more likely to crack and break.
- Stock the products indoor, protect them from moisture and store products in their original packaging to protect them from adverse conditions.
- Products will be delivered with identity cards containing material and company information.

Installation

- The installation area should be a clean, dry and well leveled surface.
- For floor application on screed, it is recommended to use flexible C2 TE S1 class cement-based adhesive.
- For application on concrete with mortar, the product placed on the mortar should be lightly tapped with a hand or a rubber mallet to ensure that the mortar touches everywhere equally and there is no gap.
- It is recommended to use white adhesive if the terrazzo to be applied is light colored, and black adhesive if dark colored.
- To increase the adhesion of the product after installation, it is recommended to lay with the double spreading technique.
- It is recommended to use cement-based flexible joint filler for the joints 48 hours after the application in adhesive applications and 5 days after the application in mortar applications.

Maintenance and Cleaning

- It is recommended to use pH neutral products for surface cleaning. Most of the cleaning materials used for cleaning marble and natural stone surfaces are suitable for use.
- Liquids such as tea and coffee spilled on terrazzo slabs should be cleaned immediately, as in materials such as marble and natural stone. Otherwise, the stain on the surface may be permanent.
- It is generally appropriate to use soapy water to clean the products. In addition, while cleaning the surface, do not use hard materials which may damage the surface.
- Do not use materials that may damage the texture and color of the surface such as bleach, salt spirit, acid in the cleaning and maintenance of the products.
- You can consult us about the suitability of the cleaning product you want to use.
